

THE SHRED ACE DIFFERENCE

With Shred Ace recurring shredding programs, you get NAID AAA Certified security and unmatched customer service, all tailored to meet the exact needs of your organization.

Competitive Pricing

We take pride in offering the best value in the marketplace. If you've received a lower price quote for an ongoing service, let us know and we will make sure to beat that price.

NAID AAA Certified Shredding

Shred Ace is proud to offer mobile shredding services that are NAID AAA Certified, the highest security benchmark in our industry.

Big Company Capabilities, Small Company Service

Shred Ace is owner-operated, which means we are accountable for the level of service we provide. Our team answers the phone (or email), knows our customers, and can provide assistance immediately.

We Show Up!

At Shred Ace we pride ourselves on being reliable. If your service is scheduled for every 4 weeks, we shred every 4 weeks. We designed our operation to have the capacity and flexibility to meet all of our commitments, all of the time.

Additional Material

Unlike some shredding companies that require a second trip, Shred Ace will never turn down extra material during a regular service stop. We build flexibility into our routes so that any additional material can always be handled by our technicians, eliminating hassle and stress for our customers.

Your Total Security Solution

Shred Ace can destroy hard drives, proprietary merchandise, electronic media, and more.

We Are Here to Stay

Shred Ace has been shredding for government, commercial, and residential customers since 2008. We have grown steadily over that time by adhering to our simple formula – provide a reliable, secure, and friendly shredding service with the most competitive pricing. It works!

No Long-Term Commitments

We rely on our unparalleled service to retain our customers, not a nasty contract.
